EDUCATION

Major in Computer Science and Technology, Nanjing Tech University B.Sc. degree.	2017.09 – 2021.06
Major in Computer Science and Technology, Nanjing University M.Sc. student. I have changed my program to a Ph.D. at the last year.	2021.09 – 2024.06
Major in Computer Science and Technology, Nanjing University Ph.D. student.	2024.09 – Now

HOBBIES

I am used to play sports like running (usually 5km), swimming, badminton and ping-pong.

I also like chinese crosstalk (相声) and stand-up comedy.

RESEARCH

My research interests focus on abductive learning and neuro-symbolic learning, which unify statistical learning with logical reasoning.

A learnability analysis on neuro-symbolic learning NeurIPS'2025
This paper presents a comprehensive theoretical analysis of the learnability of neuro-symbolic (NeSy) tasks within hybrid systems. We characterize the learnability of NeSy tasks by their derived constraint satisfaction problems (DCSPs), demonstrating that a task is learnable if and only if its corresponding DCSP admits a unique solution.

Ambiguity-aware abductive learning ICML'2024
This paper considers the ambiguity of the abductive reasoning process, i.e., an observation could have multiple valid explanations. Furthermore, we proposed an ambiguity-aware abductive learning method to handle this issue.

ABROAD EXPERIENCE

Vancouver, Canada Attendance of ICML'2025	2025.7.13 – 2025.7.19
Vinnea, Austria Attendance of ICML'2024	2025.7.21 – 2025.7.27
Hanoi, Vietnam Attendance of ACML'2024	2024.12.4 – 2024.12.8
Istanbul, Turkey Attendance of ACML'2023	2023.11.11 – 2023.11.14
Macao, S.A.R Attendance of IJCAI'2023	2023.8.19 – 2023.8.25

INTERNSHIP

Intership, Game of King of Honor, Tencent 2023.05.31 – 2023.07.24
I was working on the game agent of King of Honor (王者荣耀). The main duty is on the platform developing and maintaining. *Shenzhen, China*

AWARDS

Outstanding Graduate Student Nanjing University	2023, 2024
Winner Award International Algorithm Case Competition, Track of Data Selection and Label Correction	2022
First Prize of Academic Scholarship Top 10%, Nanjing University	2022, 2023

National Encouragement Scholarship

JiangSu Education Department

2019

The First Price of The Chinese Mathematics Competitions

Chinese Mathematical Society

2018, 2020
